FILED

CAUSE NO. 42500-01
MAR 02 2004

INDIANA UTILITY
REGULATORY COMMISSION

You are hereby notified that on this date the Presiding Officers make the following Entry in this Cause:

On February 9, 2004, a Docket Entry was issued in this Cause that asked the parties to informally discuss the implementation details of an on-site visit to view existing hot cut and conversion activities, processes, plant, facilities, and equipment. The purpose of an on-site visit is to assist assigned Commission personnel, and possibly other parties as well, in understanding the inputs to SBC's batch hot cut cost study and to generally provide information regarding the existing hot cut and conversion activities and processes currently in place. In addition to viewing SBC's performance of these processes, we also encouraged participation by one or more CLECs. We also noted that any on-site visit would be open for any party to this proceeding to attend.

It is our understanding that the consensus among the parties and Commission staff is that the on-site visit should be scheduled for March, 19, 2004. Therefore, an on-site visit, as described above, should take place on March 19, 2004, starting at 10:00 a.m. EST and ending at approximately 1:00 p.m., at SBC's offices located at 240 North Meridian Street, Indianapolis, Indiana.

IT IS SO ORDERED.

Judith G. Ripley, Commissioner

William G. Divine, Administrative Law Judge

Date

Nancy E. Manley, Secretary to the Commission
